

Product Specifications

Brand: Jaden

Name: High speed air turbine handpiece

Model: SD-23 114

No.	Item	Technical parameters & performance indicators	Remark
1	Appearance description	Copper body, non-slip design	
2	Head size	sizeΦ10.2x13	
3	Bearing	ceramic bearings	
4	Internal structure	The wind wheel assembly is an open type	
5	Water	Single water spray	
6	Chuck type	Wrench type	
7	Tail design	4-hole fixed connector	
8	Air pressure	0.20-0.22MPa	
9	Air consumption	30-36L/min	
10	Cartridge balance	≤150μg	
11	Radial run-out	≤0.01 mm	
12	Rotational speed	350,000-410,000rpm/min	
13	Cutting force	Radial≥1.1Kg Axial≥2.0Kg	
14	Noise	≤60dB	
15	Other	When the water pressure is 200kpa, the cooling water flow rate is> 50mL/min	
16	135℃ Autoclavable		
17	Warranty 6 month
